Operation Kino

Under the label Operation Kino, established with the support of MEDIA Mundus, Transilvania, Sofia, Istanbul and Sarajevo Film Festival, are focusing on accessing wider audiences for theatrical distribution and bring, throughout the year, a part of their programme and atmosphere to audiences in other towns in their countries. Also, in cooperation with Reelport GmbH, a number of participating titles are offered on the Operation Kino Video on Demand platform.

The project is aiming at developing the film industry, enhancing the educational and cultural aspect of cinema, as well as providing access to wider targets with the goal of creating a new generation of audience.

A specified programme section within Operation Kino in Bosnia and Herzegovina, Punk Cinema, aims at encouraging and supporting young talents and film lovers, who are given the chance to promote and develop their works.
